BOREK

BOREK PARASOLS | OUTDOOR FURNITURE

The family-owned company Borek, specializing in parasols and outdoor furniture, proudly unites three distinctive brands. Borek (est. 1977) represents timeless elegance and understated chic design. Max & Luuk (est. 2013) showcases youthful innovation with refined materials, while YOI outdoor furniture (est. 2019) captures the latest trends with contemporary designs and unparalleled comfort.

For 2025, we are thrilled to present a collection that embodies the perfect blend of innovative new designs, timeless classics, and versatile expansions.

This year, we welcome esteemed designer Mariska Jagt, who debuts with The Horizon. Crafted from robust teak and featuring organic shapes, this collection radiates elegance and superior craftsmanship.

Our woven collections take center stage, combining natural shapes, materials, and tones in shades of white-taupe and bronze. While we expand the successful Rob, Deauville, Ovar, and Leno collections, we also proudly introduce Genua, a comprehensive new serie that includes dining, high dining, and lounge chairs.

The Volterra is the new modular lounge serie for the coming season, offering a perfect balance between outdoor living and the sophistication of interior furniture.

Additionally, with the Belmonte collection, we embrace fibre in an innovative, renewed form, marking a significant milestone in our ongoing journey of innovation.

We invite you to explore the Borek 2025 collection and experience how our designs redefine outdoor living with sophistication, comfort, and creativity.

Frank Bogaers

COLOUR OVERVIEW PRATO (DECORATIVE) CUSHIONS & POUFFES

Prato is a textured linen look outdoor fabric with a soft touch. The polypropylene material is resistant to fungus and bacteria. It is very high UV-resistant and has excellent light fastness. Prato is non-absorbent and withstands water from swimming pools and seawater.

Maintenance advice: We advise using Borek Fabric Cleaner to clean the fabric. After cleaning, the fabric can be given extra protection using Borek Fabric Protector.

In the price catalog you can see which cushions are standard available for each product. Other colours/fabrics are available to order for a surcharge.

PRATO ALL WEATHER

The Prato fabrics used by Borek for all weather cushions & pouffes are particularly suitable for outdoor use. The fabrics are dyed completely and treated with a water and dirt repellent coating. These exclusive fabrics are stitched with special yarns, making it virtually impossible for water to penetrate to the filling. The comfortable filling is also provided with an almost waterproof and breathable cover, designed specially for Borek. These materials make it possible for you to store your cushions outdoors throughout the season, but of course you don't have to do this. To protect your cushions from dirt, it is advisable to store your cushions in a clean, dry place. You can also use Borek protection covers.

The following lounge collections are delivered with Prato all weather cushions as standard: Altea/Barrel/Bassano/Belmonte/Cadiz/Calcara/Chepri/Coimbra/Deauville/Faro/Genua/Havana/Horizon/Hybrid/Key/Levante/Lincoln/Milano/Morella/Murcia/Nido/Ovar/Rapallo/Ribbon/Santa Cruz/Savona/Softline/Tavira/Volterra/Vigo/Viking/Vitoria.

All other cushions are also available in all weather fabric for a surcharge.

SUNBRELLA® DECORATIVE/ROLL CUSHIONS & POUFFES

SUNBRELLA® ALL WEATHER

The Sunbrella® fabrics used by Borek for all weather cushions & pouffes are particularly suitable for outdoor use. The fabrics are dyed completely and treated with a water and dirt repellent coating. These exclusive fabrics are stitched with special yarns, making it virtually impossible for water to penetrate to the filling. The comfortable filling is also provided with an almost waterproof and breathable cover, designed specially for Borek. These materials make it possible for you to store your cushions outdoors throughout the season, but of course you don't have to do this. To protect your cushions from dirt, it is advisable to store your cushions in a clean, dry place. You can also use Borek protective covers.

The following lounge collections are delivered with Sunbrella® all weather cushions as standard: Cadiz/Calcara/Lincoln/Majinto/Murcia/Pasturo/Viking/Vitoria.

All other cushions are also available in all weather fabric for a surcharge.

MATERIAL & MAINTENANCE

ROPE

ARDENZA ROPE

The Ardenza rope is made from a thermoplastic synthetic rope. The material is coloured right through its core, it is waterproof, UV-resistant and antifungal. The Borek Ardenza rope is resistant to temperature variations from -40 to +80 degrees Celsius.

MAINTENANCE ADVICE

Borek Ardenza rope can be cleaned with Borek Fabric Cleaner. After cleaning it is possible to protect the material with Borek Fabric Protector.

POWDER COATED ALUMINIUM & POWDER COATED GALVANISED STEEL

Fluidized powder coating applied to the aluminium or galvanised steel structure by electrostatic spray. To ensure the solidity and resistance of the powder coating, the complete structure is stoved at a temperature of about 180° degrees Celsius. These materials are fabricated to endure rigorous outdoor conditions such as sunlight UV-exposure and extreme temperatures variances.

MAINTENANCE ADVICE

To clean and maintain with Borek Multi Cleaner.

MATERIAL & MAINTENANCE

BELT

ARDENZA BELT

Ardenza belt is developed exclusive for Borek. The material is coloured right through its core, it is UV-resistant and colourfast. Borek Ardenza belt is protected with a unique environmentally friendly coating, is water repellent and antifungal.

MAINTENANCE ADVICE

To clean the Borek Ardenza belt, we recommend Borek Fabric Cleaner. After cleaning it is possible to protect the material with Borek Fabric Protector.

POWDER COATED ALUMINIUM & POWDER COATED GALVANISED STEEL

Fluidized powder coating applied to the aluminium or galvanised steel structure by electrostatic spray. To ensure the solidity and resistance of the powder coating, the complete structure is stoved at a temperature of about 180° degrees Celsius. These materials are fabricated to endure rigorous outdoor conditions such as sunlight UV-exposure and extreme temperatures variances.

MAINTENANCE ADVICE

To clean and maintain with Borek Multi Cleaner.

Altea lounge chair,
Tarifa coffee table

A close-up photograph of a light-colored wooden leg, likely made of oak, showing a natural wood grain. The leg is angled downwards and to the left. The word "BOREK" is engraved in a simple, sans-serif font on the side of the leg. At the top of the leg, a thick, grey, braided rope is secured with a metal fastener. The background is a blurred, light-colored surface, possibly a concrete floor or wall.

BOREK

MATERIAL & MAINTENANCE

TEAK

TEAK

Borek uses only mature carefully selected teakwood, all of it harvested in the accordance with our environmental policies. Teak wood comes from the Tectona Grandis. The wood's renowned durability is due to its high content of natural oils. The limited absorption of moisture protects the wood from warping and therefore gives the wood its enormous stability under the effect of UV-radiation, chlorine and sea water. It is possible that small cracks appear in the furniture but this is a natural working process of wood. Untreated teakwood will eventually fade to a greyish colour. The unique wood joint of some products may show widening due to weather influences. This is a natural process that might occur in this collection. Tables/benches 220cm or longer may begin to sag.

RECLAIMED TEAK

Reclaimed teak is (semi) handmade out of old recycled teak wood. We got it by searching on various areas in Java. The reclaimed teak we use is what we got from old houses, buildings, bridges, boats, etcetera. Purchasing this product means accepting cracks and bursts, an irregular surface, a different wood structure, and the fact that wood works. The simplicity of nature itself. Teakwood is a close-grain and oil-rich hardwood and is especially stable in its recycled form. Therefore it is the ideal material to produce long-lasting outdoor furniture. The wood has been used before, so has some unique characteristics: we need to use patches in the wood and the wood contains materials that have entered (for example nails). These may cause rust, which may stain in the product itself or cause sedimentation on the floor. The furniture will legstially show stains during aging. This includes minor black spots that occur where nails or bolts were left in the furniture. This will not damage the quality of the wood itself. Wood is a natural product and is subject to external influences. Cracks and change of colour are physical facts to be expected. Each piece will age differently and each piece will develop its own unique character. Left outdoor, reclaimed teak will develop a grey patina. Tables/benches 220cm or longer may begin to sag.

MAINTENANCE ADVICE

We advise to clean teak a few times a year with Borek Teak Cleaner which cleans teak and restores its clean and sturdy appearance. Borek Teak Protector saturates teak to make it impenetrable for liquids and dirt. To maintain the natural, golden brown colour of teak and restore greyed teak to its natural colour, you have to use Borek Teak Sealer. Borek Teak Sealer is not recommended for reclaimed teak (Cadiz, Sevilla, Tarifa & Parga).

BOREK

MATERIAL & MAINTENANCE

ALUMINIUM

POWDER COATED ALUMINIUM & POWDER COATED STAINLESS STEEL

Fluidized powder coating applied to the aluminium or stainless steel structure by electrostatic spray. To ensure the solidity and resistance of the powder coating, the complete structure is stoved at a temperature of about 180° degrees Celsius. The materials are fabricated to endure rigorous outdoor conditions such as sunlight UV-exposure and extreme temperatures variances.

MAINTENANCE ADVICE:

To clean and maintain with Borek Multi Cleaner.

DEKTON®

A unique material that looks and feels like natural stone but with advanced properties. Dekton® consists of sophisticated raw materials used in the production of glass, porcelanic and quartz surfaces. With a new production process, involving high temperatures and extreme pressure, the origin of natural stone is simulated. The result is a slab material that is ideally suited for outdoor furniture. Dekton® is UV, scratch, stain,- and heat resistant and resistant to ice and thawing. It is an innovative and durable product of top quality, carefully processed into a personalised custom design.

MAINTENANCE ADVICE

To clean with Borek Multi Cleaner.

MATERIAL & MAINTENANCE

PROTECTION COVERS

PROTECTION COVERS FURNITURE

Borek protection covers are UV-resistant and antifungal. They can be used to protect furniture frames throughout the year. Protection covers can also be tailor-made.

Material: pvc coated polyester fabric.

Colour: combination of grey and anthracite.

MAINTENANCE ADVICE

Please note: The use of the covers to protect furniture **together** with cushions is only recommended during the summer season.

Covers can be cleaned with a mild detergent and a soft sponge.

PRICES VALID TILL 1 OCTOBER 2025

This price catalog is composed with a lot of carefulness. Borek is not responsible for deviations in prices, size, colours and/or the models. Factory guarantee 2 years.

MEET OUR DESIGNERS

MARISKA JAGT

For Mariska, outdoor living is more than a functional addition—it is a reflection of inner peace, where feminine elegance meets natural simplicity. The Horizon collection embodies this vision, with designs that are soft, serene and timeless, evoking a deep connection with nature.

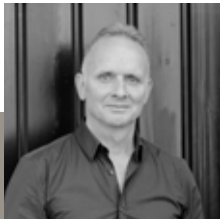

BERTRAM BEERBAUM

Enjoying design, that's what Bertram Beerbaum wants to convey to people. In collaboration with Borek, an outdoor furniture line has been developed that boldly combines design, pleasure, and functionality, allowing you to enjoy outdoor living in a stylish and comfortable manner.

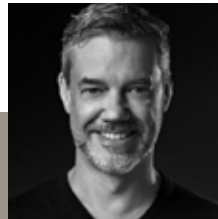

MENEGHELLO PAOLELLI

Meneghello Paoelli are Italian product designers. They aim for innovation, both in concept and aesthetics, but this has never been the goal in itself. "Anchoring innovation to concrete needs, functionality, beauty, and quality: that is the mission."

FRANS VAN RENS

In his designs for Borek, Frans van Rens aims for the ultimate experience of comfort, beauty, and quality, allowing you to fully enjoy outdoor living.

BOB MANDERS

In the designs for both homes and furniture pieces, the actual use is always paramount for Bob Manders. "An object can be as beautiful as can be, but if it doesn't function well and bring joy in use, it is worthless."

ERIC KUSTER

Borek has truly enlisted a top designer in Eric Kuster. His exquisite designs can be found worldwide and exude unparalleled allure. Eric Kuster excels like no other in infusing a sense of unparalleled luxury into his designs.

MARCEL WOLTERINCK

From Wolterinck's World, his store in North Holland, he ensures that spaces undergo the Wolterinck metamorphosis both domestically and internationally. Always based on tranquility, rhythm, and symmetry. His use of color is subdued, and his materials are pure. He always seeks to connect the 'inside' with the 'outside'.

STUDIO BOREK

Studio Borek is our in-house design agency with over 40 years of experience in the outdoor furniture industry. Designers who prioritize both design, comfort, and functionality and have proven to be success factors in outdoor furniture. The innovative designs form the basis for high-end collections and are closely followed both nationally and internationally. A Studio Borek design is not only trendy but also timeless.

HUGO DE RUITER

Hugo de Ruiter considers furniture as a third skin. Similar to well-fitted clothing, furniture should sit well and suit you. Your interior and terrace arrangement become a characterful signature of who you are.

MAARTEN OLDEN

Maarten Olden designs high-quality lounge furniture for Borek. The furniture is the result of a continuous and critical design process, from the initial concept to completion.

JAN WILLEM VAN ELTEN

As a product designer, Jan Willem van Elten aims for an accessible design with its own identity. He also describes it as 'a people-friendly design with character.'
